

HuRis Cloud Services **HR ANALYTICS**

an **SAP SuccessFactors**  add-on

If you want to be able to make data driven decisions, need information for your board meeting or want to assure your organization plans are on track, all managers and HR executives want to have instant access to the most crucial data within the organization.

With our **HR Analytics** on SuccessFactors this is now within reach. With our out-of-the-box dashboards based on your SuccessFactors data you can start immediately!

OUT OF THE BOX YOUR MOST IMPORTANT INSIGHTS

- ✓ Illness frequency or duration,
- ✓ New hires,
- ✓ Formation and Staffing
- ✓ Exits,
- ✓ Promotions and demotions,
- ✓ Outstanding leave entitlements, and more,

Just drill down to business unit, gender, age category or other metrics to get the data you need. The charts and raw data are downloadable for easy use in presentations or memo's.

HR Analytics is of course fully integrated in SuccessFactors. You can start **HR Analytics** directly from the homepage of SuccessFactors and access is based on the roles of SuccessFactors. All SuccessFactors data can be used in our **HR Analytics!**

Do you also like to get more out of your SuccessFactors system?
